About me

I am a Data Scientist passionate about using data to drive business growth and improve operational efficiency.

I am well-equipped to extract insights from large and complex data sets. I am a quick learner, always looking to expand my knowledge and stay up-to-date with the latest developments in the field. My strong problem-solving, organizational, and analytical skills make me a valuable addition to any team.

Work Experience

Data Scientist on Upwork - Montevideo, Uruguay. May 2022 - present

Responsibilities

- Apply for contracts by sending proposal letters offering the solution to the problem to solve.
- Negotiate the terms, milestones, and deliverables of contracts.
- Choose the technology that better fits the solution demanded by clients.
- Communication with clients to approach decision-making and issues management.

Key Accomplishments

- 6 contracts closed with 100 % of success with a 5 of 5 stars feedback rating in all contracts.
- Improving the data extraction process using multithreading and web scraping techniques.
- Using data visualization to help understand what the data is telling.

CEO at Aerial - Havana, Cuba. Oct 2017 - Nov 2019

Responsibilities

- Foundation of a small company dedicated to selling and installing television antennas.
- Making calls, writing ads, and connecting with people to reach leads.
- Contact providers to get the components needed in the manufacturing process.
- Selling and installing devices to clients.

Key Accomplishments

- +500 customers in 3 provinces.
- Improving customer satisfaction by adding a post-sell service.
- Help hundreds of families to switch from old analog television to digital television.

Telecommunications Specialist at RadioCuba - Havana, Cuba. Sep 2015 - August 2019

Responsibilities

- Programming, installation, and assembly of radio frequency equipment.
- Repair and maintenance of TV transmitters and FM radio.
- Quality control of radiation systems.
- Analysis and study of propagation characteristics and terrestrial conductivity.

Key Accomplishments

• Improvement of transmission quality by replacing obsolete equipment with new technologies.

Education & Certifications

IBM Data Science Professional Certificate - issued by Coursera

Google Data Analytics Specialization - issued by Coursera

Telecommunications and Electronics Engineering - Universidad Tecnológica de La Habana "José Antonio Echeverría" - La Habana, Cuba 2015

Skills

- Self-Taught Person.
- Fast Learner.
- Curiosity.
- Team Player.
- Active Listening.
- Analytical Skills
- Problem Solving
- Critical Thinking
- Creativity Skills

- Data Science
- Data Analysis
- Statistics.
- Machine Learning
- Web Scraping.
- Data Cleaning
- Data Processing
- Data Visualization
- Data Mining
- Extract, Transform, Load (ETL)

- python.
- pandas.
- numpy.
- scikit-learn.
- matplotlib.
- seaborn.
- Tableau
- SQL.
- postgresql.
- postman.
- selenium.
- git, github.

Languages

Spanish, English.
